Testimonials:

"You were professional, prepared and credible. I'm sure you'll be a phenomenal success and positively impact millions of people's lives." - **Dick Clark, Dick Clark Productions**

"I value the specific memory techniques and study strategies that you shared with the teachers. The more important message that you skillfully engrained in the teachers is that you can do anything that you set out to do. It was great that the teachers could benefit personally from your presentation as well as professionally. Once teachers see that your techniques can work for them in their own lives, they are that much more ready to share the same message and techniques with their students. You are a dynamic, attention-getting speaker and held the teachers' attention whether for a full day or for two hours. Thank you for being upbeat, positive and tied into what we are doing at the school. You kept our attention, helped us integrate important new information and made it fun every step of the way." - **Elaine Yagiela, Executive Director - New Morning School Plymouth, Michigan**

"I am writing you to express my congratulations and appreciation of your presentation of 'You're a Genius-And I Can Prove It!' at our recent fall leadership Conference in Palm Springs, California. Your skills for moving people through the different concepts were exceptional and I read nothing but positive, if not excited, comments at the end of your presentation. The next time we are looking for a dynamic presenter with valuable content, a professional style and a total commitment to doing a quality job we will look to you." - **Timothy Blackburn, Chairman, Human Resource Section, Commonwealth Club of California**
